

Youth Engagement Alliance

Collaboration in Practice

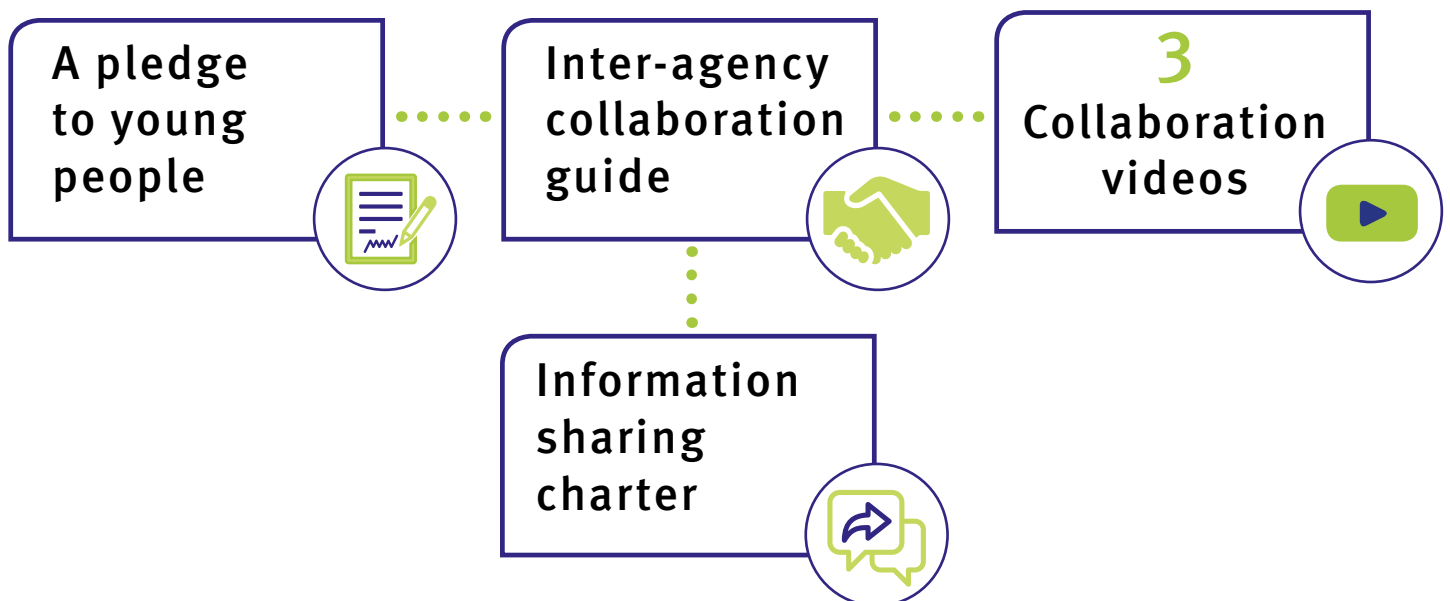

The Youth Engagement Alliance is a group consisting of nine key government agencies and three non-government education partners committed to the engagement and re-engagement of all young Queenslanders with education, training and employment.

What we've been working on

The Youth Engagement Alliance is setting the benchmark for effective inter-agency collaboration and information sharing between government and non-government agencies to support vulnerable young Queenslanders to succeed.

A suite of resources has been developed to support agencies and officers to collaborate, share information and build connections with their cross-agency colleagues. By using these tools, you can help young people receive the holistic support they need to engage or re-engage with education, training or employment.

You can find more information and access copies of the Youth Engagement Alliance's resources at www.qld.gov.au/YouthEngagementAlliance.

Regional Youth Engagement Hubs

In addition to the work of the Youth Engagement Alliance, the Department of Education has established Regional Youth Engagement Hubs in every education region. They can support you and your efforts to engage or re-engage young people with education.

Find out more information and contact details for each Regional Youth Engagement Hub at www.qld.gov.au/youthengagement.
